## CASE STUDY: LEGAL DEFINITION OF 'CLIMATE REFUGEE'

---

- 2020 Global Report on Internal Displacement shows that in 2019, 23.9 million people were displaced by climate related disasters.
- Client approached us to find lawyers to help in their pursuit of a **new legal definition of “climate refugees”** in 2018
- In 2021, we were approached again by the client to build on this definition for **advocacy initiatives at COP 26** later this year, targeted at the Biden Administration and EU.
